A band with a thousand influences without sounding quite like any of them, Funny Face play "Passionate latin tinged soulful funky stuff" according to...well, us. 13 MP3 Songs ROCK: Psychedelic, URBAN/R&B: Soul Details: Funny Face were formed in the back end of 1999 after a chance meeting in Cardiff between Lyndon Ives (vocal, guitar) and Stefan Tomczyk (guitar, bass, keys, vocals). Songs followed. A selection of these songs were then transported to the Blue Room studios in Bedford and recorded by the legendary Ombudsmann over a course of a year. London based Bingo Recordings quickly snapped up their huge potential garnered from these sessions alone. The result is the release of their 13 track album, "LUST". Funny Face will commence work on a new album in 2004. Their debut EP "DUST", recorded in 2003 is also available via bingorecordings.com
