Piano pop/rock lyrical cuisine with a sprinkle of jazz, Latin Cuban/Brazilian seasonings. 11 MP3 Songs
POP: Piano, POP: with Electronic Production Details: Geoffrey was writing originals on piano by the time he was 10. He was a fully proficient drummer playing in bands by his teens. He was a highly sought after session keyboardist in the Bay Area studios through the 80s and 90s. The combination of his melodic jazz orientated piano writing and groove emphasis from drumming help give Geoffrey a unique and diverse sound. Not unlike some of Donald Fagan and Walter Beckers famous Steely Dan stuff but with an electronic groove feel. All the proceeds of this CD go to the Kauai Habitat for Humanity. I spend a lot of time with my family in the island of Kauai and we decided to use my musical talents and dedicate the revenues from this album to charity. This is a good time in my life where Im able to give something back to a place that has given me so much. I hope this will also spark others to think of ways to use their talents or skills to help others in need.
