European modern rock with a hint of British progressive. 10 MP3 Songs POP: British Pop, ROCK: Progressive Rock Details: The indie-pop-band GLOBAL SONE blends elements of rock, pop and space to create a harmonically sounding style of music. Appealing rhythms and melodies give their music it's characteristic touch and a highly recognizable one too! The rhythm-section - David Buballa (drums), Katrin Schwibinger (guitar) and Michael Morschett (bass) - sets a clearly defined base, which is adorned by Helena Heckers keyboards with a wide variety of sound, reaching from spacy-hovering pads to tubey-warm organ-chords. Singer Patrycja Giezek's expressive voice along with her irresistible charm inevitably draws the listeners attention and by doing so manages to give the songs it's soul. With lyrics in a whole bunch of different european toungues global sone additionally emphasizes the character of their music - a matter which is also expressed in the band's name.
