Easy listening style with some comedy songs to make you laugh and some sad ballads. 12 MP3 Songs  
EASY LISTENING: Love Songs, COUNTRY: Country Pop Details: Hi there I am a cheeky chappie who enjoys a good laugh, even at my own expense or some body else's. My first pop idols were, Adam Faith, Sir Cliff, Elvis and Billy Fury in that order although my first memories were of Guy Mitchel and Alma Cogon. I am a born again Christian so like Sir Cliff my songs probably will not get air play either. My mother would sing and play piano and a pedal organ , which I still have to this day. I would always be either singing or whistling whilst working and for most of my working life I was a pig farmer, that was rather like serenading your mother-in-law, the only trouble was there were two hundred of them, a bit like a massive hangover with multiple vision. My songs range from Christian Worship through country, rock-n-roll to comedy songs. A fun person or not, have a listen and decide. See ya Keith
