So buy the CD HISTORY My style is home grown in streets of Los Angeles where there is not a lot of 600 pound rappers, that kick rhymes like I do. In 1992 I made my first tape "Back to The Under Ground" I got hooked up with a cat named, Rabb who introduced me to the studio, back in 1990-91. A few weeks later I got a call from Fat Jack his brother Dejon Clark of Mass Men Production from a ad I had placed in the recycler. They took me on as a rapper artist. From there I began to meet some very good artist like AWOL1, ATU, DK Toon, Volume 10 many more. Working with Fat Jack got me hooked up with DJ Slip of C.M.W. DJ Slip trained me like Fat Jack, and Rabb did in the uses of studio gear, beat making and recording. Threw working with Slip is how I ran into DJ Unknown. Jugg Head who was working on a solo joint is on my album, and I also hooked up with him threw Fat Jack and Slip. That led to DJ Unknown of Celeb Ent. Who taught me some mixing and mastering skills, and had me making tracks for the arist on his label, such as: Kid Frost, The G'Fellas, Mellow Man Ace Sen Dog, Rappin 4Tay, Coolieo, Roger Troutman, Goldie the "Mack," Daz Kurupt and many others. All work that was needed so I can keep recording my own music. Now I am working on recording a new album. I have a break beat album coming out in Dec 2002. Write me and let me know your thoughts peace!
