

# Mp3 Pete Holly - The Morrison Center Session

[DOWNLOAD HERE](#)

alternative piano instrumental compositions/plus pop/rock guitar and vocal tracks. 14 MP3 Songs POP: Piano, NEW AGE: Ambient Details: my 6th grade teacher in bellvue wa.,ms. sophie,gave me piano lessons on her own time when i asked her her to teach me.she also taught me to sing properly. after that i continued to practice on my own and when ever i met someone who knew how to play i would ask him or her to teach me how to play differant styles of music.i especially wanted to learn how to play the blues.for a while i lived next door to a guy that was a really good blues player and he taught me alot. before i recorded the piano songs for this album i practiced just about everyday for 5 years straight.it was only after this intense period of practice and composition that i felt ready to record my piano music.the tape came out better than i expected. so here it is,all 7 tracks that i recorded in one session at the morrison center for the performing arts. all the best, pete holly
