About the Author Dr. Rita Pugh, Writer of beyond seeming duality books and music, is author, lecturer and profound influential instructor in spirituality/metaphysic. Her special approach to the teachings of One Power is concerned with the absence of a second force acting on or against us. It is the awareness of who and what we really are as spiritual beings, and how it relates to our daylily living in the physical world is what is of most interest to her. Dr. Pugh Successfully completed her studies in undergraduate and graduate work at Iowa State University, then moved on to California State University, which led to her successful completion of her PH.D in Public Administration. Dr. Pugh has written over 5 books on the subject and is now working on her newest book regarding the Principle of One Power in the series of the Beyond Seeming Duality books. Currently in which 5 are in publication that are listed below. BOOK 1 Beyond Duality Duality Explained From A Spiritual Perspective After reading Beyond Duality, the reader will be empowered to fully experience the fun and happiness that life has to offer. There is no longer the seeming heaviness of life on a daily basis. Using a simple approach the writer teaches mastery of thought. The Principles show how to master the reading of any textbook. Beyond Duality can serve well as a required reading text for students of New Thought as well as those in other training programs or fields of study. I found Beyond Duality to be tremendously uplifting and inspirational. Once the ideas of this book are attained, the ability to think critically with regard to concepts in other fields of study become not only possible, but easy. Kimberly Seals, LISW In the tradition of New Thought and refreshingly void of its clichs, this book aspires to guide us in reconsidering the basis of our beliefs about Reality and thus change our individual experiential realities. Writing with a confident understanding of the experience of One Power, the Author delivers another text- book of metaphysics with simple, liberating, and significant knowledge of how the Principle relates to God as the expression of all that there is. In this work it is shown how to: * Understand your Spirituality * Know what it means to be whole complete * Pray according to the Principle of One Power * Release negative attitudes unwanted behavior * Understand why you can claim the right to perfect health and financial freedom Spirituality/Inspiration ISBN 0-9688802-1-5 BOOK3 All or Nothing Beyond Seeming Duality Why is it that some people go through life experiences untouched by a lot of mental pressures, stress, financial bondage, broken heartedness, rejection of love, hearts filled with hatred, anger, agony pain and the evils that seem to display itself in this world? What are the answers? It is not faith, in the God of two powers that loves some of His children one moment and sends evil, torture, and pain to others in another moment. It is not a God that sits in judgment of His children's behavior and then sends some of His purer children to show them a better way of life which does not work, and will never work for them. Leaving those children with marked painful past experiences that hang over their heads for the rest of their lives. There is no God that says, your life of anger, pain, loss, lack, discontentment, limitation, fear, rejection of love, or loving someone with no love in return is your fault because you did not turn to Him and do what He said do. There is no God that has granted you or anybody else a life to live in fear, nor will damn you to live in hell eternally. Within these pages are answers you can live with that will remove seeming hurt, pain, denial, lack, and limitations of all sorts permanently from your conscious experience. You have chosen this book, now open the pages and experience the Life that you can live free from the belief in two powers. When it seems as if we keep coming back to this sort of questing let us realize that the Truth never has the need to question itself. Falsehood is what seems to tell us that we are not enough and that there is something more that we need to be doing in

order to be whole and complete and to show forth the completeness that we real are. The world seems to be built today upon the new ideas of the systems of socialism and capitalism, each of which seems to continuously tell people that they are not enough. This is the purpose of this work, that is, to show and tell, that we are, already complete. We are already enough Rita Pugh- Spirituality ISBN 0-9688802-4-X
