This book examines six different monsters that appear in YA fiction: vampires, shapeshifters, zombies, unicorns, angels, and demons. Beginning with a discussion of the meaning of monsters in cultures all over the world, subsequent chapters discuss the history and most important incarnations of the aforementioned monsters. Titles featuring the same kind of monsters are compared, and interviews with authors provide insight into why they wrote these titles and information on why they are important. The bibliography at the end of the volume includes a comprehensive list of titles featuring the various monsters.
