Arts of Japan was originally published by Tuttle Publishing in print form in 1957. This book, "in the words of the author, "represents an attempt to fill a long-felt need for an account of the history of Japanese art which would deal with the crafts as well as with the so-called fine arts and carry the story of Japanese art up to the present day instead of ending with the death of Hiroshige." The reader will quickly perceive how well this aim has been achieved. Here, in a stimulating and informative text and 121 well-selected plates 12 in full colour is a dynamic treatment of the various influences that have shaped the course of Japanese art history in the fields of painting, sculpture, architecture, and handicrafts. Discussed with challenging insight are the impact of the various Indian and Chinese schools, the pervasive influence of Zen philosophy, and the many other artistic developments, giving the reader a well-rounded picture of the great significance and contribution of Japanese art. Special features of the book are sections on handicrafts and a chapter on prehistoric art. The book comes at a time when there is an awakened interest in Oriental art throughout the world. At the same time new methods of art research have been so expanded and refined that many interpretations of earlier writers have been made obsolete. Because of linguistic barriers, political upheavals, and the limited number of specialists, misconceptions have been especially numerous in the field of Oriental art. THE ARTS OF JAPAN admirably corrects these misinterpretations, consolidates the results of the most recent scholarship, and in one compact volume presents an up-to-date, authoritative survey of Japanese art throughout its long history and in all its colorful diversity.
