Related styles: ELECTRONIC: Industrial, ROCK: Industrial Rock People who are interested in Nine Inch Nails Skinny Puppy Prodigy should consider this download. Details: 64K deviates from the norm to explore the depths of politics and science fiction with SMP frontman Jason Bazinet. This EP features six original songs ranging from dark conspiracy themes to far off futuristic concepts that parallel many of today's political barriers. Bazinet's vocals take the main stage here, sometimes making you question your own existence and wondering if the world around you should be taken at face value. 64K's dark industrial wizardry remains in-tact, sometimes even stepping outside of it's own genre. The majority of Choke was mixed by Wade Alin (Christ Anlogue, The Atomica Project). At this time "Choke" is a digital only release.
