When Hell Freezes Over is Vol.1 it speaks for it self. Basically I am dude trying to be heard and sell a few discs. Vol 2 dropping in November. 19 MP3 Songs HIP HOP/RAP: Southern Style, HIP HOP/RAP: Rap  
Details: This CD is that southern underground that includes my views. I luv being opinionated over my own tracks. I play every note and I am very proud of this but I would drop a verse on ya'll sh\*t or bang out a track for little to nothing I am trying to make a name. I feel that every ni\*\*a ain't made to bling, me myself I'am old school and when I started this I was a B-boy and ain't sh\*t changed. I think that my music is different in that no one track sounds like the next. I use the alias "Freeze" cause I am cold on the mic and cold on the track. I also gave a lot of thought into this CD and I am giving listeners 20 songs for \$6 dollars also, I am going to drop another CD in about 3 months with all new material just as tight as the first CD. Most of my music is what inspires me at the time. I have to be honest and say that I am most inspired by: ANGER and TRUTH. Just check out the song "what I think" and tell me that ain't that FLAME. Then check out the other songs.
