Hypnotic old skool electronica. Pulsing synths and rich melodic themes will take you where you want to go. 9 MP3 Songs ELECTRONIC: Trance, ELECTRONIC: Ambient Details: Do ever feel like you just want to get away, maybe you need some help to make the world go away, or maybe you just want to take a pleasant journey to that special place in your mind? Well I have and thats how the music on this CD came to be, and thats why its called Mind Sweep. When I was in my late teens, I experienced nothing short of a spiritual awakening, when by chance I heard Tangerine Dream on an old radio show called Musical Star Streams. Ill always remember that night because it changed my life forever; from that moment forward I knew I was going to be a musician. The music on this CD is part of that journey into myself. If you want music that can take you inside, on your own journey, then splurge on yourself a little and buy this CD, and in some strange way we will be taking that journey into your mind together. Peace, Martin
