

MP3 Moody Mccarthy - The Night It Went Well

[DOWNLOAD HERE](#)

Sharp material-driven stand-up comedy from a New Yorker performing in Canada. He kinda just stands there, so you're not missing a thing on this audio CD. 25 MP3 Songs SPOKEN WORD: Comedy Details: Moody McCarthy is a word smith. Or wordsmith, if thats how its spelled. He wasnt sure, but the point is he likes smithing words. Moody began his stand-up in the 1900s, and now - after appearances on Last Comic Standing, Jimmy Kimmel Live, and Star Search (the Arsenio one, not the Ed McMahon one) - he's more in demand than ever. Based out of New York City, hes become a continental favorite by spinning yarns about women with raspy voices, the joys of time zones, and the perks of unclehood. No gimmicks, just jokes: the lad can set-up punch. His new CD captures 45 minutes of good lovin' at one of his favorite clubs, Ottawa's intimate Absolute Comedy. Listen to a sample and you'll see why reviewers have called The Night It Went Well a case of truth in advertising.
