The return of pop melody, dance swagger, analog influence, and digital technology 12 MP3 Songs POP: New Wave, ROCK: 80's Rock Details: Recorded and produced by bassist Max Mileski, The TV Sounds debut LP has been awhile in the making. The origins of The TV Sound date back to August of 1997, when Steven Hutton and Max began collaborating on various acoustic and electronic instruments. Three years later, the two had written their 21st century statement for the return of pop melody, dance swagger, analog influence, and digital technology. At the time however, the tracks were not released. Reborn in 2004 with the addition of Josh Lemoine and Brandon Dalida, The TV Sound performed to an enthusiastic crowd of over 1500 people at Voltage Fashion Amplified 2005. Styled by Steven, the group seemed almost designed for such a performance. Now, a year later, the energy of that performance has been captured in a recording. The self titled and as mentioned self recorded and produced album of 12 songs will have you dancing wherever you may be listening.
