The book of Daniel is key to the entire Old Testament prophetic revelation. Who better to help you understand Daniel's stories, prophecies, and dreams and give you a brighter hope for things to come than John F. Walvoord, one of evangelicalism's most prominent leaders, and Charles Dyer, a Bible professor and expert on Israel? In this second in a renewed series of commentaries from Dr. Walvoord, he addresses the alleged historical inaccuracies and considers past and future fulfillments of specific prophecies. At key points different views and approaches to interpretation are explored. Walvoord devotes special attention to textual and doctrinal issues while avoiding technical language. Refined, updated with the English Standard Version (ESV), and streamlined, this classic text is set to help you understand and interpret the book of Daniel and gain a better grasp of what will come in the future!
