His sound has been refered to as "a welcome return to the way country music is suppose to sound like". His country ballads have been called 'dreamy' and his eyes draw you in and under his spell, not just for a moment but permenently. Listeners and fans all agree, you won't be disappointed by this album...there is no filler, every song on it is a winner! Even the most discerning listener has found a reason to enjoy this album. Alan has gained fans of all ages and musical tastes and many times it has been said "generally, I don't like country music...but I like this". Not convinced yet?... Listen to what the critics had to say: Larry Delaney of Country Music News writes: "...this just happens to be one of the best pure-country vocal performances heard in sometime...Alan K. Parsons is indeed 'a voice to be heard from!' Parsons from Port Coquitlam, BC., is a protege of sorts of fellow West Coast singer/songwriter Kenny Hess, who also happens to be one of 'Cancountry's' best kept secrets..." He goes on to say: "...Alan K. Parsons sings country- deep and twangy and down-homey...it's a welcome return to the way country music is suppose to sound like. "One Last Lie" is a standout ballad deserving of airplay; other highlights come in the uptempo "Little Words" and the bouncy "Give It A Try" ...in fact, that's the bottom line here for both radio and country music lovers...give this a try! And, if there's a record label out there looking for a 'Country' singer...sign this guy up! Fast!" Manfred Vogel of Country Corner/Denmark writes: The Canadian West Coast once again delivers a prime example of really good, heart felt Country Music. Parsons sings straight forward, skips the technical effects...that's pure Country. My favorites are the ballads... "Here We Go Again" and "One Last Lie" as well as the dynamic "Little

Words". This is how I believe Pure Country Music should be. Cheryl Homan/Editor of Country Wave Magazine had this to say: "Hurtin', Lovin' and saying goodbye is summed-up in the Parsons/Hess tune, "Here We Go Again", delivered in true Country style by Parsons' emotionally charged vocals."
