ancient indigenous chants original songs from global traditions and spiritualities. 14 MP3 Songs WORLD: World Fusion, WORLD: African Details: Oshun Gaia is the crux of where spirit meets flesh, sound meets soul, and water meets earth. Oshun is the Orisha Goddess of fresh water - the energy of bounty, blessings, home, and hearth. Gaia is Mother Earth. Her name is from the Greek noun for "land". Gaia was born from Chaos, the great void, and with her came the god of love, Eros. She gave birth to the ocean and the sky. This album is where breath, song, chant, drum and dance are one. Where spirit is called by one voice and many... one tradition and many. We are blessed to have the opportunity to share years of teaching by many prophets of song, who have led us down this road of spiritual teachings and ancient traditions of healing through the medicine of music. Join us as we travel through the lush harmonies, powerful drumming, and enchanting ritual of ancestral calling.
