(A voice) not necessarily singing but a way to express myself 8 MP3 Songs EASY LISTENING: Mood Music, EASY LISTENING: Background Music Details: Christopher K.G. Hagadone My CD, "The Only Expression", is a story of how I came back to life. I was so sick at the time, sad and confused in where I was going, but I made resolutions to better my life because what I was doing hurt me. So I vowed to myself and took on the challenge of making a CD. I accomplished it. When I wrote it I was in a lot of pain so the CD is my sad story in which I played the songs from my heart wishing that the hurt would go away.
