"Influenced by legendary artists such as the Beatles, Paul Weller, the Ramones, Led Zeppelin, and the Clash, Fingerling proves that a rock album can still leave a dent in the music world today. Definitely look into this album." -In-Your-Ear magazine 8 MP3 Songs ROCK: Classic Rock, POP: British Pop Details: "British rock, with an American tang, naturally. We loved it." -MOJO magazine (U.K.) "Influenced by legendary artists such as the Beatles, the Ramones, Led Zeppelin, and the Clash, Fingerling proves that a rock album can still leave a dent in the music world today. If you enjoy music that won't make you depressed, but do exactly the opposite, definitely look into this album." -In-Your-Ear magazine (Tucson, Arizona) "From NYC, here doing solo acoustic shows in support of his eponymous EP, just released in Europe. It features fresh, tuneful songs of social and political matter, sung with sincerity, style, and swagger. Fans of John Lennon, Joe Strummer, Marvin Gaye, and Jim Morrison will not be disappointed." -Best of Camden weekly (London, England) "Fingerling understands and embraces the journeyman approach to art, in which the artist spends a great deal of time mastering the intricacies and nuances of the form in which he's interested, and then employs that knowledge in the furtherance of that form. It's a model that served as the basis for some of the greatest works of art in the history of civilization. The attention that Fingerling has paid to the history of rock shows in every measure of the album. An impressive brand of melodic classic rock, I enjoyed the hell out of it." -Splendid magazine (Illinois) "Straight-up rock, done quite well, in fact." -Time Out New York "Fans of solo Beatles, Paul Weller, and Lenny Kravitz will truly dig Ed Fingerling." -Fufkin.com "ED FINGERLING- Hailing from NYC, the marvelously-monikered Mister Fingerling once trod the boards with highly respected nearly-weres Oral Groove and Ultrafine. He writes nicely-honed, hook-ridden melodic songs in the classic rock vein. Expect great things." -BBC What's On (London, England) "To inspire people to be better humans, kinder and

more peaceful, is the motivation behind the majority of the songs. To say that those are worthwhile goals would be a major understatement: I firmly believe that art can change a person's perspective. Built on Hendrix-style riffs, a Zeppelin-esque crunch, and put together with a certain modern-rock clarity, his songs resemble early Lenny Kravitz. There are moments here that really shine." -Erasing Clouds magazine (Detroit, Michigan) Ed Fingerling CD reaches #1 Chart Position for Autumn 2003 on Internet radio station Radio Crystal Blue radiocrystalblue.com/chart.html
