A rich, yet subtly blended mix of caf atmosphere and music creation with just the right amount of lay-back cool and pump-up vibe. From the energy of Espresso to Go! and the haughtiness of Walk This Way to the cool of Cross Rhodes and Coolin the Breeze, to the seductive Nightcap and the gently awakening Sunday Macchiato, to the down-homey country riffs of Feelin Bluesy, this collection of caf music takes the listener on a soundscape world tour of the caf life. Ambient Caff is inspired by every caf strip from Sydney, Melbourne, Perth, San Francisco, Santa Barbara, New York and LA, to Roma, Lucca, Milano, Tropea and Taormina anywhere that great coffee is served with style and attitude. Come, enjoy the aroma, the beautiful people, the pretenders, the chic, the dags. This album is dedicated to all who enjoy the essence of the coffee bean, with attitude! Location atmospheres recorded on the caf strip in the port of Fremantle, Western Australia and in Italy. Recording and mixing began in Perth in 2005 and was completed at Energi Musics Santa Barbara studio in September, 2006. (The composer drank way too much espresso!)
