If the fresh, poetic metaphors of folk musicians like Ingrid Michaelson and KT Tunstall married the warm-voiced melodies of Tracy Chapman and rented a room from the raw, "in your face" honesty of Pink, the babies would be the music of Kayte Grace. 6 MP3 Songs in this album (24:54) ! Related styles: FOLK: Folk-Rock, POP: Folky Pop People who are interested in Tracy Chapman KT Tunstall Taylor Swift should consider this download. Details: Twelve years ago, Kayte was a member of a nonprofit performance organization donning scarecrow and fairy costumes, belting show tunes and oldies like If I Only Had a Brain for nursing home residents and at county fairs. Spending almost a decade entertaining the sometimes sleeping, sometimes yelling, sometimes enthralled nursing home residents allowed Kayte to cultivate a performance style marked by her infectious energy, humor and spunk. Years later, she formed the acoustic/indie/pop duo Russell Cried with a good friend. The pair wrote several dozen songs together, which they honed and performed at area coffeehouses. It wasn't until Kayte went to college that she picked up the guitar for herself, inspired by a kaleidoscope of new people and experiences and the pulse of the city, to write. From here her story accelerates. She stumbles upon a \$50 guitar in Linen N Things, buys it, composes ten songs while teaching herself to play, posts them on YouTube, wins fans all over the world, becomes YouTube's Unsigned Pick of the week, and records and releases her debut EP Soaked You In all in less than nine months. And the music isn't all she's been up to Kayte, a Screen Actors Guild member, has acted professionally for over ten years, landing roles in national commercials and in television shows like Law Order: SVU, HBO's The Wire, and Gossip Girl.
