She has also led many church folk groups consisting of children and adults, and helped start the Rock and Rejoice group (with her boys on percussion) for the children's program at Princeton Alliance Church, in Plainsboro NJ. For the last 6 years Laurie has been an assistant teacher at a preschool in Cranbury, NJ, singing with the children everyday and coming up with ideas for her last 2 CD's, as well as entertaining at childrens' parties and events. These songs are all Laurie's original compositions, inspired by the children she works with everyday and thier zany stories and antics. Laurie wrote all the songs, and played all the instruments on this project. Here We Go Again-This title track says it all. I had so much fun doing the first CD I just had to do another. You Can count On Me-Kidz are so close to their pals, I see it in my classroom everyday. When someone is having a "situation", The Kidz really want to help out. They offer suggestions and ask lots of questions. This song is for the kidz who really care for their friends. Beautiful Day-easy one!!!! It was a long winter; we could not go outside to play much. The first warm day.....Wham!!!!This song wrote itself. I Want To Be A Singer- I'm so into this tune. Why!!! Cause it's all about me! This is a fun one! We get wild and crazy! I really do play the drums by the way..even if it feels like another lifetime. Grouchy Mood-Bad Day everyone has one. Only Moms can fix it sometimes. At least that's what the Kidz tell me. I Can Draw-All Kidz do art. But don't ever ask, "What is that?" Let them tell you what they draw. As you can tell from this song I am not much of an artist.

Although I hold my own in my pre school class. The kidz say I am pretty good. It's Kinda OK-Hopefully through this tune the kidz will learn about sharing. What it is, How to do it? We don't have to like doing it. Get up and Try again - I write with five year olds in mind. Bike riding is a Big deal. When the training wheels come off, it's Party Time. A New Day-I always like to include a song for adults too. Something to think about. The future is now. This was written quite a while ago. But after all the troubled times we have had over the last few years I felt this song needed to be included. Maybe it may guide and influence someone. School Today - Written with a specific child in mind. She just wanted Mom all the Time. No one else. School was out of the question. She finally came around and all was well. It only Took until the next year when I moved up to teach the next class, it was hers, so we got promoted together, did she realize OK, School is Cool!!!! I Just Wanna Say Thank You-Written for my graduation class 2004.
