Moody, lush melodies weave interior landscapes with poignant lyrics, sweet and sultry vocals, and thickly layered guitars. 10 MP3 Songs POP: Power Pop, ROCK: Adult Alternative Pop/Rock Details: Swoons debut album saw its first unpremeditated sparks when songwriter and frontwoman Minnie Cho started typing into her laptop one somber summer evening. After six weeks of writing without an instrument, she bought herself a guitar, learned to play it, and continued writing prolifically by ear. Undeniably drawing from her formative years with long-time college boyfriend, Chris Collingwood, tunesmith of Fountains Of Wayne fame, the songs are inflected with deeper, darker rivers that infuse a strong collective mood. Based in New York, Swoons lush sound is fleshed out by the diverse talents of Matt Rhoden on lead guitar, Chris Aston on bass guitar/vocals, and Romeo Dubois on drums/vocals. Legendary producer, Godfrey Diamond, extends his experience and impressive discography producing, engineering, and mixing major-label and indie projects. Minnie Cho (lead vocals, guitar), Matt Rhoden (lead guitar), Chris Aston (bass, vocals), Romeo Dubois (drums, vocals)
