

Mp3 Wayne Pascall Acappella - Come Let Us Adore Him

[DOWNLOAD HERE](#)

This album features a combination of traditional Christmas Carols and songs that I have written for The Season. A Christmas cheer of musical harmonies and rhythms rendered by the human voice and anatomy. 12 MP3 Songs EASY LISTENING: Mood Music, SPIRITUAL: Contemporary Christian Details: BIOGRAPHY: I am Wayne Pascall and I produce some of my music under the artist name "Wayne Pascall Acappella." I render my music in the style of contemporary acappella, using the human voice and anatomy to produce all sounds. I write and compose most of my recorded music based on life events and experiences which I like to express in rhythmic harmonies and syncopations. Some of my songs are composed straight from The Holy Bible and others are adaptations of popular inspirational and secular songs. While growing up, I was exposed to a wide variety of music, especially from the Caribbean. Now, I enjoy using the human voice to produce acappella in several styles and genres. Though my influences for singing acappella came from artists like Bobby McFerrin, Rockapella, The Nylons, Acappella, Fairfield Four and Take 6 just to name a few, I have developed my own style through the years. Originally a bass singer for previous acappella groups, I began publishing my music on The Internet as a solo artist in 2001. I have a background in singing, ministry, leading the church choir and teaching music theory. While providing some elements of entertainment, the main purpose of my music is to minister unto others in the form of artistic expression while bringing glory to Almighty God. My you enjoy the selections and be blessed! THIS CD: The ancient Christmas Carols included in this CD continue to define the reason for the season. All the songs in this album including the ones I have written focus on the nativity - the birth of the Christ child. I invite you to plug into this CD and sing along with some of these songs which have blessed our hearts not only at Christmas time but any time we sing them.
