how you too can cash in on newsletter publishing without all of the time consuming, stress inducing research, work and writing. I know this may sound crazy but by the time you finish reading this letter, everything will be as clear as the skin on a newborn baby! First you need to realize that... People Just Like You Are Making Small (And In Many Cases), Large Fortunes Using The Power Of Simple, Easy To Run Newsletters! It's a fact, the newsletter trend is booming and the truth is, its going to keep going up for a long time to come because people are always searching for information. Sure, there are people saying "e-mail is dead", "blogs are better", etc which is just a bunch of total nonsense. I Call Bullcrap On All These Naysayer's! I hope its ok to say that in this letter, after all this is the Internet, not the Super Bowl! So I'll say it again... Bullcrap, Bullcrap, Bullcrap! E-mail has been around since the inception of the ecommerce boom and it isn't going anywhere, ever. I'll even go as far to say that even if the Internet crashes, e-mail will stay solidly intact. You see people who own online businesses, and all the big Internet entrepreneurs are running businesses online for a reason, they love quick results! These kind of people are no different when it comes to how they want their newsletters delivered! Internet Marketers want their newsletters in their e-mail so they get the newest information first; no waiting, no postal mail, no searching, etc. The best you can do is give them what they want, and give it to them now! If you give these hungry readers what they want on a regular basis you will... Become "The Expert" Your Readers Are Searching For, And Create Huge Profits, Word Of Mouth Referrals & Search Engine Traffic! As a publisher of quality content, you are in a very powerful position. There are literally hundreds of people who get Internet Marketers to signup for an "Internet Marketing Newsletter" but what they really publish is a front for their ads. You'd be surprised how few of the people that run newsletters in this market actually send any kind of "real content". Almost all of the so called "Gurus" are sending content with no other intention than slipping in their product a half dozen times, for you to buy! Hello... We, your customers, are not all Idiots!!! While you could and should make a recommendation with your content, it should be after the "content" meaning- the articles you offer in your newsletter should stand on their own. If you publish content that really provides value to your subscribers you will establish yourself as the "guy or gal who cares" and who provides real quality information. You will also notice that your subscribers love sending their friends to you to subscribe! Another great benefit of publishing great content is that it will get picked up by search engines if you submit it to article directories or publish it to your blog, and it will generate loads of search engine traffic! I'm sure that you'll agree these are all powerful things to have pushing your

business to new levels of profit. Is It Really As Easy As You Say To Completely Automate My Entire Newsletter For Years At A Time? Honestly, it's much easier than I say it is! As you can see, these premier pieces of content will not only automate your newsletter for several years, but also drive your newsletter to profit like you never thought possible. I want you to ask yourself one very important question... What would it be worth to you to have a

newsletter ready to go, 2, 4 or even 8 years in advance (based on your publishing schedule) with absolutely no writing on your part? If you just can't stand the thought of long days and nights trying to produce content that may or may not produce any kind of sales, this is exactly what you've been looking for. Never before has there been a pre-made, 100 ready to go newsletter that you can just plug in, walk away from and forget while it generates profits for you. So, Does This Incredible Amount Of Pre-Made Content Cost So Much That Average People Like Me Can't Afford It? No way! The whole reason for this system was to make it possible for regular people to start getting their piece of the newsletter publishing pie. Of course, I could easily charge several thousands of dollars for this content because a quality article on a site like eLance costs \$30 and up on the low end and that means you're getting a minimum value of \$3,000 in content. The eLance writers won't come up with the ideas for you either! I've also come up with 100 extremely hot and relevant topics that will establish you as an immediate expert! That's a priceless addition. But keeping with my intention to make this affordable to everyone trying to make it with their own online newsletter, the cost is only going to be \$97! That means for less than a measly 100 bucks (Read on for your price for TODAY!) you can say goodbye to your newsletter publishing and writing woes for good!
