

China's Long March To Freedom: Grassroots Modernization - Kate Zhou

China is more than a socialist market economy led by never more reform minded leaders. Clear distinctions between the people and the government are emerging, underlining the fact that true liberalization cannot be imposed from above. Social dissatisfaction with the government is now published in the media, addressed in public forums, and deliberated in court. Intellectuals devoted to improving inhuman rights and continued liberalization are part of the process. This grassroots social revolution has also resulted from the explosion of information available to ordinary people (especially via the Internet) and far-reaching international influences. All have fundamentally altered key elements of the moral and material content of China's party-state regime and society at large. This social revolution is moving China towards a more liberal society despite its government. The Chinese government reacts, rather than leads, in this transformative process. This book is a landmark — a decade in the making.
