Although fans and scholars alike recognize the Grateful Dead as icons of the psychedelic music, the bands improvisatory approach still remains an enigma to the uninitiated. In Grateful Dead and the Art of Rock Improvisation, Malvinni unravels this mystery, walking readers through the bands musical decision-making process. Written for rock music fans with little to no background in music theory and scholars and students of popular music culture, the book reveal the method behind the seeming madness of Americas greatest jam band.
