World music that begins with African sounds and brings reggae, hip hop, blues, R&B even a little country -- That's why it's called "Never Before". 12 MP3 Songs

WORLD: World Beat, WORLD: Reggae Details: I was born and raised in the bush of Tanzania, Africa. He moved to the city, Dar es Salaam, when he was 13 and started playing professional soccer at 15. I played Soccer all over the world: Tanzania, Djibouti, Yemen, Saudi Arabia, France, Holland, Japan, and the United States. After retiring from playing soccer, I ended up in Seattle, Washington. Here I coach a Youth Select Soccer Team and design, manufacture, and sell soccer uniforms and gear to teams and individuals around the world. I have always played music since I was a kid, because when you are a bush man, you have to sing and play beats to yourself to keep entertained. In the bush when I was a kid I had no radio or TV. All my life I have been making music in my head. In 1999, I had the chance to produce an album for "Cool James" Dandu. Also known as Mtoto wa Dandu. The Album was called "CJ Massive: African Most Wanted" and was a big hit in East Africa and in African communities around the world. Sadly, Cool James was killed in a car crash in Dar es Salaam, Tanzania. Myself and all Tanzanians miss his musical talent. But he inspired me to continue to create music. This year I have begun putting together my own album. I am going to call this album "Never Before" because its a new style of music never heard before.
