"Wonder"ing about Constant Wonder...keep on reading... Connie Gillies and Alice Weiser met three years ago at a women's retreat at the end of Long Island, New York, where they both live. Connie was playing an old upright piano and Alice was singing, and the connection they made at that moment became the soul of Constant Wonder. A deep part of them (complete with goose bumps) innately realized that they had found the vehicle to express their gifts and talents. In no time at all, they realized that Connie's teaching experience, fluid piano style and songwriting combined with Alice's soulful singing and expressive acting could produce wonder-filled interactive children's performances characterized by sheer delight and boundless energy. Like their live performances, "Walk with Wonder" is an interactive musical journey, inviting children to explore, wonder, answer, imagine, act and sing along. Alice and Connie's stage personas come shining through, with Connie embodying a Sesame Street style "Bert" (only happier and more evolved!) while Alice plays a full-blown "Ernie". Through the songs and the banter that ties the songs together, children will be treated to oodles of science and nature facts carrying a theme of responsible ecology, all served up with good humor and wonderment. With the release of "Walk with Wonder", Constant Wonder makes their debut to a national audience. The material for future CD's is ready to roll; their ultimate goal is to be a familiar presence on children's television.
