

Mp3 Diana Robinson - Sea Dreams

[DOWNLOAD HERE](#)

Sea Dreams are inspired by sea kayaking experiences I've had. These are instrumental electronica/trance/ambient tunes along with several vocals. 12 MP3 Songs EASY LISTENING: Soft Rock, ELECTRONIC: Ambient Details: All tracks written, performed, produced, recorded and mixed by Diana Robinson (except 'Vocalise' which Diana adapted from Rachmaninoff). Vocal tracks sung by Diana Robinson. I started composing "Sea Dreams" as an ambient electronica CD comprised entirely of instrumentals. However, as I worked I began to write vocal pieces which disturbed the flow of the CD. These vocals are included as the first four tracks so as not to disturb the flow of the rest of the instrumental "Sea Dreams" compositions. Diana's arrangements and performances were recorded on a Macintosh G5 using Cubase SX, MOTU 896HD, Stylus RMX, Expansion's BFD, Miroslav Philharmonic VST, Spectrasonics Trilogy, WAVES, a Kurzweil K2000R and a Yamaha P120. Thanks to my brother Bob who patiently listened to thousands of remixes and offered excellent musical advice for each one. Thanks to my other brother David for his always sanguine musical observations. Much love and thanks to my Mother for her patient piano instruction when we were all children. As always, thanks to my husband Jack for helping keep my musical inspiration fresh.
