Classic style rock poetry music with a message. 5 MP3 Songs ROCK: 90's Rock, FOLK: Power-folk
Details: New York, N.Y.----May 24,2004---Somewhere it was said that an artist ideally serves as the
conscience of his society. The band "donathen" is a case in point. This New York City band is making
statements, and bringing a refreshing meaningfulness back to rock music. Their first release, entitled
simply, "donathen" is a social-political commentary aimed at America from the top down, and addresses
current issues from the bombing of foreign countrys, to the most recent Presidential election, and our
current leader. donathen does not stop there. Their lyrical expose continues with the examination of the
way we treat each other and even touches on the way we relate to ourselves. This fresh NYC band has
something to give in its songs, and their delivery is straight-forward without being offensive, creative
without being vague. The website:donathen.com
