Relationships, just as in the jazz life, are full of ups and downs. In this CD of mostly original and tastefully chosen cover tunes, experience the joy and the pain of life and love through jazz and new age sound images. 12 MP3 Songs JAZZ: Jazz Vocals, NEW AGE: New Age Details: Ed and Carol Nicodemi are a New York City based vocal and guitar duo. They are proud to release their debut collaboration of primarily original songs that will immediately take you in with their eclectic mix of pop, jazz, and even a little new age to "spice the pot". One of their songs has been covered by jazz great Kenny Barron. While performing most of their own material, they also have recorded songs for other artists. Jazz Life is an album that your head will respect and your heart will remember! (Ed would like me to note that there is no piano playing on Heart and Soul)
