Poetry that provides a clear window into a young woman's psyche. A mix of blues influenced folk with a nice twist of rock. 11 MP3 Songs FOLK: Folk Pop, ROCK: Folk Rock Details: "Gabrielle...was born to sing and write music. It's wonderfully evident in her debut CD, a collection of 11 tunes that are pure art. Power. Flow. Energy. Synergy. Passion. Beautiful melodies. Intelligent lyrics. This young woman also produced most of this CD, wrote most of the music and lyrics as well as played acoustic guitar and provided angelic vocals. "Ever Mine" (the opener) is a great start as all the elements of what makes a song (and a CD) great are there in ample supply. And the soaring harmonies just take your breath away! " -Les Reynolds, indie-music.com "An extremely impressive package has been put together by this artist, not the least of which is the music it contains - rich deeply felt well-observed, tuneful pop-folk."Ever mine"; is a stern opener and shows a hint of country. The next song, "The Line of Your Leg", awes with its sensuality and trippy, tremolo effects. The Fiona Apple-like "When You Want It", is yet another fine example from this New York based artist who has everything cooking on all burners. Gabrielle produced this full-length album herself and it's worth a listen". Tied for 3rd place, Best Demo CD of the Year! - Music Connection Magazine
