Electronic meets Rock. Great Instrumental Music. Fine Guitars over perfect Synthesizers. 8 MP3 Songs

ELECTRONIC: Pop Crossover, ROCK: Instrumental Rock Show all album songs: Towards the blue

horizon Songs Details: All music and Instruments by Guido Meyer. Composed between 2000-2004.

Recorded January-May 2004 in Bern/Switzerland. guidomeyer.com "Meyer makes a tasteful mix of

guitar music over layers of keyboards and drum machine rhythms. This indeed sounds smooth

and, fortunately, contains enough sting. Meyer states that Joe Satriani inspires him and that is absolutely

correct: nice riffs and solos fly out of your speakers. The magnificent title track sounds like Andreas

Vollenweider has lent his harp to Satriani. In "Forever Spring", Keith Emerson has ordered one beer too

many. And the closing track "Inner Soul", is an exercise in meditative hard rock. This is an excellent

release. (Andre de Waal- e-dition magazine No.5 - 2004) "Always great to hear an album which is done in

a sincere way, with lots of feeling, album reveals great beauty and perfection within that can only be felt

when listening to it. It's a special album in many ways. It could be described as guitar-fronted electronic

music. Synths with real taste and masterful programming. The guitar is played immaculately as well. I can't

even compare his style to other artists, it's quite personal. Melodies? They will play in your head and

touch your soul from the first time you hear this album. Towards the blue horizon gave me 45 Minutes of

pure listening pleasure. To say that I enjoyed would be a huge understatement. Every track here is a

winner, with the awesome title track leading the way. This album is a piece of art, period." (Artemi

Pugachov - Encyclopedia of Electronic Music - 2004)
