A soulful pop rock blend of old and new attempting to break away from the expected. 12 MP3 Songs
POP: Power Pop, ROCK: Modern Rock Details: AN EXPRESSION OF OH is as optimistic and positive. Once again creative freedom and flexibility has lead to an album that will surely remind you of a time (and sounds) gone before. And yet, it remains as fresh and up to date as possible, As in the case of previous albums, the desire is to make music, not fashion statements. Minan's songs are not just beat oriented, but are melodic as well. Meaningful lyrics are also of importance, Minan also proves to be an exceptional instrumentalist on this CD. Listen, for example, to the wonderful mini-moog solo on Hope is, backed by a chugging Hammond B3 organ reminiscent of an era when that instrument itself was a predominant part of the sound of many a pop song, especially those magnificently soulful RnB influenced chart busters. At the present time, Minan is also working on video presentations and it is hoped that, before too long, streaming video clips will be made available via a new web site under development.
