Thaddeus Carlton's "Alive At The Studio" is romantic, funny, charismatic, rhythmic, soulful... Every feeling you'd want in a complete album. 14 MP3 Songs URBAN/R&B: Rhythm Blues, POP: Today's Top 40

Details: I never met Barry White...I came very close to meeting and I even 'shared a moment' with 'the Maestro' but we never met up close.I used to practice with his 'Love Unlimited Orchestra' at a rehearsal 'apartment' on Sunset Boulevard in Hollywood...There was so much excitement in that environment...Two drummers, who were sync-ed so well that they played as one,...four guitarists...and a bunch of other excellent musicians. Barry would come by sometimes but just to observe and explain which changes needed to be made... I had no chance to meet him there. One day, while I was singing at my own recording session at Larrabee Recording Studios (West Hollywood, back when they only had one location...now they have four)...I was shocked when the outer door of the console room began to open right in the middle of my song. I wondered,..."Who could be so oblivious to recording studio etiquette that they would enter a "live" session even while the large, red light indicated 'STOP!!!!'" I began to get upset when I first noticed the intrusion but I had to keep my cool because I didn't want to affect the creative flow of my performance. The door continued to open...I was in the bullet-proof glass, sound-proofed recording chamber so I was helpless as to preventing whoever it was from coming in...When the trespasser was finally revealed, I was relieved, excited and energized by the presence of one of my musical heroes, Barry White. I continued singing, noticeably affected in an exhilarated fashion...he snapped his fingers to the beat, began to tap his feet and totally got into my groove...It was such an honor to entertain Barry White...It was like retribution, payback for the many times he had performed for, and inspired me.On this album, I dedicate the song "For The Very First Time" to none other than the recently departed Barry White...The song, although an original Thaddeus Carlton, has a Barry White feeling...I think you'll enjoy it.

Similarly, on my last CD release (Thaddeus Carlton, The Greatest Hits, Volume 2) there is another track, "More Than A Miracle " that has a touch of Barry. Some of my songs involve popular phrases such as "Talk To The Hand" and "Just Chillin'". Others are about love such as "Merci Beaucoup", "I'm In Love" and once again "For The Very First Time". Humor is also one of my strong suits, as the songs "Cheeseburger", and "Nothin's Changed" would indicate. The tunes "Mamacita" and "Bedroom Eyes" possess Latin persuasion while "Living In Heaven" and "I'm In Love" take you back to the classic days of songwriting (the forties and the fifties). The crown gem of the entire album is a ballad entitled "Dream"...It envisions a world of peace and harmony between all the many facets of mankind whether it be racial, religious, governmental,...whatever...We've got to learn to live together. I write music for everyone! I have many different influences. I am capable of composing at least one song per day, every single day of my life as I am very fortunate, and blessed by God in that way.. When I sit down to 'write', I sometimes don't know what will come out of my mind...All I know is this is what I was created to do. Many professionals have referred to me as being one of the great songwriters of our time...Praise such as this makes me feel happy...but I write the songs for you, the public,- my public! Thank you very much for buying my music! I will continue to work hard with the intention of satisfying your entertainment needs!-----Sincerely,...Thaddeus
