

Mp3 Traveling Circus - Hip-hop/rap: Hip Hop

[DOWNLOAD HERE](#)

The Traveling Circus' new CD is packed with banging beats and incredible lyrics that will keep car speakers bumping and dance floors packed. 15 MP3 Songs HIP-HOP/RAP: Hip Hop, URBAN/R&B: R&B Rap mix Details: The Traveling Circus is back on the block with a fire-hot new CD. The Traveling Circus is Jigaboo Child, Kardiac Da Mac, and Xhotkalla. Coming straight out of Goodwater (GH2O), Alabama, these dudes have been inspired to pursue the Hip-Hop life because of their love for the game. Rappers like Outkast, 2Pac, UGK and Jay-Z showed the guys that even they too could climb from the gutters of the South to worldwide fame and notoriety. The Traveling Circus hooked up with the hot production team, Mood Control Productions (moodcontrol.com), and they've been making hot tracks every since. Jigaboo, Kardiac and Xhotkalla have worked hard and their effort began to pay off when their music was included on a Mood Control Compilation CD release called Relentless. They recorded the title track as well as the club favorite Rollin 4 Deep for the release. Based on the overwhelming response that they received from those tracks, the group began to tour the Southeast. The trio returned to the studio in 2006 to work on material for their first solo release. They collaborated with Mood Control Productions on the project. The result is a CD of the most street credible tracks that the Hip-Hop world has heard in years. The Traveling Circus' new CD is packed with banging beats and incredible lyrics that will keep car speakers bumping and dance floors packed. It includes the tracks: "Set It Off", which has been ranked in the top five on record pools charts all year long; It's Going Down 2nite, the first single, Soul Muzik and Dirty which are both instant classics. The Traveling Circus invites you to their online listening party at myspace.com/moodcontrolproductions. While you're there go ahead and rate the songs and leave your comments about what you think about the tracks.
