Choosing your career, changing your job, and getting selected by the organization that's right for you are amongst the most important decisions of your life. You need detailed practical advice - on career choice; on what organizations look for in the people they recruit; and on tips and techniques to get you through the stages of their selection process. These include presenting a cv, undergoing interviews, taking assessment tests, negotiating salaries and working with head hunters. All are covered in this book. Organizations are increasingly using sophisticated selection techniques, so this book is important if you are not to lose out to someone less talented but better prepared.
