

## Mp3 Blake And Fallon - Wasted Day

[DOWNLOAD HERE](#)

Fallon Franklin has joined forces with award winning song-writer Blake Powers to create this thought-provoking pop album. 12 MP3 Songs POP: Folkly Pop, ROCK: Americana Show all album songs: Wasted Day Songs Details: Among the myriad of artists who have emerged from Austin in the last five years, few have generated more excitement among fans, critics, and industry insiders than Blake Powers Fallon Franklin. Their live shows seamlessly blend elements of singer/songwriter, pop, rock, and blues genres. Formed in July of 2002, the band has already been recognized as a bright, creative force in Americana music with the release of their albums, Lines and Red Lights. They appear poised to assert themselves on the Pop and Rock scenes as well. The bands unique sound results from its four diverse members. Guitarist and vocalist Blake Powers is an accomplished songwriter whose credits include being named a finalist in the Kerrville Folk Festival New Folk Category in 2002 and winning the distinguished BW Stevenson songwriting award (held annually at Poor Davids Pub in Dallas, TX) the same year. David Card, the owner of Poor Davids Pub and originator of the contest, has seen popular acts like The Dixie Chicks and Radney Foster start their careers on his legendary stage. Blake has as bright a future as any of the artists weve had here, he says. Venues like Gruene Hall (Gruene, TX), Poor Davids Pub (Dallas, TX), and Stubbs (Austin, TX) and popular touring acts like Vertical Horizon, Chris Knight, Guy Forsyth, Bruce Robison, and Cory Morrow agree. Powers style evokes strong comparisons to classic singer/songwriters like Van Morrison, Paul Simon, James Taylor, and David Gray. Joining Powers on vocal duties is Fallon Franklin. Referred to by many in Austin as, simply, The Voice, Franklin is a fast rising solo star in her own right, and has the proud honor of being the first solo act ever allowed to perform at the University of Texass annual Spring Review. Fallon released her 2004 record, Red Lights as a solo project. Fallon has shared the stage with Asleep at the Wheel, Vertical Horizon, Pat Green,

Cory Morrow, and The Great Divide, and her strong, soulful voice invokes shades of Stevie Nicks and Sheryl Crow. Fallon was recently on NBC's America's Got Talent. Fallon made it to the top 25 in Las Vegas Finals. Sharon Osbourne called her America's Next Sweetheart and stated that her voice was pure and organic. Peirce Morgan stated that she was extremely talented and that her voice matched her looks. Joey Campbell is an accomplished drummer who has played with groups in Dallas, Nashville and Austin. Campbell adds invaluable depth and immense rhythmic possibility to all the groups he performs with. He counts artists such as Gene Krupa, Dave Grohl, Jimmy Chamberlain, Larry Mullen Jr, Jeremy Taggart, and Blair Sinta among his influences, and that type of rock-deluged diversity can be heard in his unique style. With the release of their much anticipated cohesive record, Wasted Day, Blake and Fallon have focused on what makes them unique: writing and harmonies. The record is seamless from start to finish and is already getting looked at by top labels including Capitol Records. Capitol Records called it a great record, solid from start to finish and something they should be proud of. From haunting political tracks like Sunday Morning Paper to more upbeat sing-alongs like Angelina and the title track Wasted Day, this record is a must have for any collection. Blake and Fallon have come a long way!
