Serene Piano Music 7 MP3 Songs CLASSICAL: New Age, EASY LISTENING: Background Music

Details: Blind Prodigy is an elegant portrayal of emotions. Bringing up the imagery of childhood memories, the music envisions such things as clouds and primary colors; this mixed with the melancholie of loss and the love from within. The music in most instances is very spiritual, seeming to come straight from the heart without much thought. The music entangles Victorian Era piano with raw emotion, in some songs. Sometimes using notes from earlier songs as a flashback, but mostly just playing straight from the heart, the melodies tend to blend beautiful music with rough sounding combinations of notes. The songs show the love and joy of life, our missteps and clumsy ways, and the childlike, but wise souls within us all. Being recorded only in a caring mood, Blind Prodigy is truly a work of love.
