World/new age; think Enigma, Sarah McLaughlin, Sting meets B-Tribe, and Loreena McKennitt 11 MP3 Songs WORLD: Celtic, NEW AGE: Ambient Details: In spite of never having had an agent, manager or record deal, Claudia Cummings has performed and recorded with artists from Jimmy Buffett, to Don Henley, to Paul Simon to Lenny Kravits. She has been successful at songwriting, performing and producing for major motion pictures. (She wrote/produced songs for 'The Majestic' starring Jim Carrey, including writing/producing the title track, 'Dizzy') This project is a totally home-made CD, that through a series of bizarre coincidences, gave her her major break into writing/producing for film. This CD reflects Claudia's personal style, marriage between Enigma and Sarah McLaughlin and very unlike her Boogie Woogie piano music for 'The Majestic' or Jimmy Buffett band member past. You can find the more complete story about her varied projects, from filmmaking to eco-compassion projects to fragrance line, and a more indepth bio at claudiacummings.com. (UPDATE: claudiacummings.com is undergoing restructuring and will be fully operational in the fall of 2004.)
