Details: The debut CD of an exciting multi-media act, Elvis Sinatra! George Leonard's Elvis Sinatra show is unique. When he tours, George appears live, but the band is on videotape. This developed out of necessity. Based in Providence, RI, the world-class musicians who make up the Elvis Sinatra band didn't want to travel. So George converted his house to a sound stage, shot and edited the music, and put it on laserdisc so he can take Elvis Sinatra with him wherever he goes. If you want to see the show as well as hear it, check out "Elvis Sinatra: (Mostly) Live!," the DVD.
