A deliriously delightful, eclectic collection of electric pop, folkrock, funkypopjazz and a lullaby. 11 MP3 Songs EASY LISTENING: Soft Rock, POP: Folky Pop Details: Thanks for stopping by. You are about to sample a veritable musical mishmash. Sit back and enjoy and if you like what you hear, feel free to tell me. As a boy the smell of old violins in musty rooms gave way to the electric atmosphere of the South Florida club circuit from the early '70s through the mid-nineties. Raised on the likes of Bach and Mozart a healthy dose of Beatles, Dan and Doobies (among others) changed the musical landscape forever. There was an enduring, perenially satisfying quality about many of these songs. They seemed to retain a 'freshness' about them that never became stale through the years. It was in that spirit of songwriting that 'Ambition' came into being. Most of the songs are more or less loosely based around ambition as a theme. Thanks must be given to Mary Potter, Ed Fitzgerald, Jeff Iorio, Jim Felicio and David Dreisen for their tireless efforts in assisting in their creation. Of course, there are many thousands of fine songs from very talented musicians on CD Baby to choose from and as such it becomes a formidable task to wade through them all in your search for good music to put in your library. However, if I have been fortunate enough to capture your attention with these little ditties than I sincerely appreciate it. I would love to hear from you.
