A soothing mix of celestial keyboard Christmas music- Traditional. 10 MP3 Songs EASY LISTENING: Background Music, CLASSICAL: Keyboard Music Show all album songs: Flurries Songs Details: "Nancy, why don't you make a CD of your wonderful piano music so I can take you home with me and listen to you anytime I would like?" After comments such as that during her many years of playing professionally throughout the country, Nancy has decided to do just that. We are certain you will love and appreciate her unique interpretations and adaptations of familiar and soothing piano music. She is recognized for what she calls musical conversation where as in human conversation one musical idea moves naturally to another musical thought. Nancy has always said she just hears the orchestra as she plays - you will understand as you hear the digital enhancements she makes to her recordings. Watching a recording session, one realizes there is no printed music in front of Nancy - the music comes from within. It is this incredible gift with music that has made her so popular and so recognized as a composer. Often in demand, she is invited to play for individuals, groups and organizations and she consistently serves as a mentor to other musicians across the country. We thank you for visiting her website and hope you too will "want to take her home with you to listen to any time you would like." Bring the holidays home with this soothing collection of beloved Christmas melodies. Featuring original arrangements of some of the holiday's most cherished hymns and colored by the haunting sounds of celestial bells, Flurries inspires the quiet reverence of the Christmas season. Pianist Nancy Clapper fuses the elegant simplicity of traditional melodies with a striking combination of unique sounds to create a distinctive holiday collection that will become a Christmas favorite for years to come
