A quirky mix of Oingo Boingo, Devo, some hints of the Cure, and a bit of experimental fun. 11 MP3 Songs

POP: New Wave, ROCK: Goth Details: Nightmare of the Elf is L.A.'s hottest underground band, known for their outrageous performances. Interviewed by Adam Bregman in the Los Angeles Times, recently featured as L.A. Weekly's Pick of the Week, reviewed in Bloody Mary Music Magazine, and playing alongside Babyland at Gilman Street (as advertised in the San Francisco Bay Guardian). Nightmare of the Elf puts the Bauhaus back into Boingo, providing a raucous voodoo dance squad rocking the house! The sound draws upon three of the strongest strains of recent rock music, new wave / electronica, dark alternative, and punk rock, and they have recently wrapped production on their debut album, Graveyard Dance Party.
