Quotable Quotes ... re: Robin English Robin English is a force of nature. Her voice seems to burst forth from some rapturous, soulful inner vault --- powerful and pliant, seemingly capable of anything yet never mindlessly acrobatic. She also sounds like no one else. That she's also a superb songwriter, plays guitar and harmonica with gusto, is a dedicated producer and can light up a stage with personality should be enough to send a squad of wannabes scurrying back aboard the Greyhound. If they only knew. And they will. Larry Wayne Clark-Songwriter/Journalist- Music Row and American Songwriter Magazine "Robin English is a POWERFUL FORCE of entertainment with a huge need to share her message with the world. She shakes me and moves me when she sings! Devon O'Day- WSIX/Nashville and National Host of "Country Hitmakers" Among all of the singers and songwriters passing through Nashville, only a select few have the potential to impact the masses. Robin English is an artist that has what it takes to break through to the next level. Her songwriting skills are strong and she has the knack for telling a story in fresh way. Her songs are carried by her powerful voice, and she has the personality and charisma of someone that is sure to rise above the rest. Robin English knows the craft of writing a good song, has the voice to convey her stories, and emits a sparkling personality that can capture the attention of almost any audience. Jeff Hill-Creative Artists Agency The first thing I loved about Robin English was her voice...heard a demo. The second thing I loved was her songwriting...same demo. The third thing was her physical beauty...had a meeting. The fourth thing was her spirit...we got to work together. The fifth thing was her grace...the project was never released. The sixth thing is the same as #4, her spirit. She continues to do her work with joy, curiosity, and love. In my experience, it doesn't get better than that. Kyle Lehning-producer Robin English is truly one of the sweetest, most caring individuals I've known. She charms - no, mesmerizes you while she deftly, passionately wields poetry and intellect to craft music with the true voice of a gifted artist. George Massenbourg- producer/engineer "Sometimes people find their true voice and stick to it. Robin's a pure artist that needs to be heard...the sooner the better." Hal Ketchum-Singer/Songwriter Robin English is a very dedicated writer and performer who needs to be heard! Now! Jeffrey Steele- hit songwriter quotes continued ... Robin is a brilliant writer. She knows what she wants to say and has a wonderful way of putting a song together. She is both intelligent and entertaining. The

result is fresh and engaging. Robin's voice has a personality all its own. She is instantly recognizable, which in itself is a great asset. Billy Kirsch-CMA award winning, Grammy nominated songwriter of songs such as, "Holes In The Floor Of Heaven," "Is It Over Yet" and "Stay Gone" to name a few. I've had the opportunity to write with and for a number of acts over the last few years, especially female artists. I think Robin is the equal of any when it comes to being distinctive, genuine, and multi-talented. It would be Nashville's great gain to have a break-out record from Robin English. Marcus Hummon -hit songwriter "Robin is by far the most intriguing co-writer I have ever worked with. She comes to the table with original, from the heart ideas and the courage and skill to communicate them. The true power of her musical gifts shines when she sings, because it is with such passion and soul and expertise that audiences are compelled to listen and believe." Kim Patton-Johnston-Singer/Songwriter/Producer "Robin English is a true artist." Brian Garry- KUAD "...impressed by her writing and hands on production." Don Jarrett-KIZN "Robin English plays exciting music that really hits our female target... it is truly refreshing to play something we can get excited about!" Jay Phillips "Robin's smooth southern style and cool country tunes captivates any audience." David Preston- BMI quotes continued... "Robin English? Talk about refreshing!! Her vocals are wonderful, but it is her delivery that is captivating. In Nashville great singers are a dime a dozen, but what you don't see every day is someone who puts you in the front seat with them and takes you on a ride through every song." Diane Kimbrough-Stage Choreographer "Robin is a fantastic singer and songwriter. She has a definite vision for each of her songs and writes them so that you share the emotion that she was experiencing when she wrote the song. She is a kind and generous person to work with." Chas Williams- Number System Book/Band I've worked with most of the top producers on Music Row over my career. Some work from the side of musical artistry, while others work from the standpoint of commercial success. Robin is able to bridge the gap between artistry and blood-boiling commercial appeal in a way that makes her production style very exciting. As an artist, she's the complete package. The first time I worked with her, I was hooked on her ability to interpret a song and draw you into the lyric. After countless hours of working with her, I'm still

amazed at her effortless delivery of a song. I've been in the front row for her live show and I've stood behind her with a guitar around my neck; Robin has always blown the roof off of any venue, no matter where I was standing. She plays guitar, she plays harmonica, she sings to every person in the audience like they're the only person in the room. Shawn Simpson- engineer "Robin English has got it all. She's beautiful, great on stage, and a fantastic, soulful singer. On top of that, I've come to know her as a top-notch songwriter, and a true musician. She is the real deal."
