

## Mp3 Tranz4mer - Gate

[DOWNLOAD HERE](#)

A mixture of Downtempo Electronica with a couple of dance tracks to keep you moving... 7 MP3 Songs  
ELECTRONIC: Dance, ELECTRONIC: Down Tempo Details: Influenced by many - 70's Funk and Soul, 80's New Wave, 90's Club scene, Kraftwerk, Tangerine Dream, Aphex Twin, Steve Roach, Synergy, Delerium, Vangelis, NIN, Gary Wright, Prince, Todd Rundgren, Thomas Dolby, 10cc, Alan Parsons. My music can sound ultra-Ambient like Steve Roach/Aphex Twin. Put all of the above artists in a big pot, add a little Tranz, stir, and you have an idea what the results may be. You can dance. You can chill. You can ponder the universe. You can make love. "Gate" was created with ACID software. This project actually started as background music for use in video productions - I remixed a few of them and came up with this collection. Although you can get an idea of how each song sounds via the soundclips, most of the songs change throughout. Variations on a theme if you will... "Seague" ranked pretty high on MP3.com; "Phantom Shadow" ranked as high as #4. Complete versions of "Seague" (with a new remix) and "Pejistuce" can be heard at the Tranz4mer website, as well as new remixes of the songs on this disc. Light some incense and enjoy the grooves. Thanks for letting the sounds of Tranz be part of your world. Peace. We are all one.
