

Mp3 World Class Noise - Many Different People

[DOWNLOAD HERE](#)

Chicago style Alternative Soul, Pop, Country straight on Rock N Roll 10 MP3 Songs URBAN/R&B: Soul, POP: Today's Top 40 Details: This CD, our eighth in thirteen years, was two years in the making. Largely recorded at my home, on the northside of Chicago and the overdubs, mixing and mastering mostly at the home of my main writing partner Paul Rau. We write what we write, no apologies if it's soul or country or top 40. We start with a demo to be a song and tear it down and reconstruct several times before we're ultimately happy with it. Sometimes we don't have to reconstruct. "Many Different People" is a proud achievement for us only because of the storms we weathered together in the midst of band members leaving and us trying to continue to keep working on our live show. World Class Noise has always tried to deliver the performance of a cover or an original tune with all that you are familiar with and always taking the song to a farther concept live that will surprise you and transport you for that moment. We live by what we have here for you the listener to decide. We hope you love it and give it a home!!!
