Internet Marketer Discovers A Simple Way To Type In A Few Words, Click A Button And Instantly Create Over 100 Headlines In Less Than 3-Minutes! This Simple Little Tool Creates Over 100 Headline Combinations All With A Single Click" - "On the average, 5 times as many people read the headlines as read the body copy. It follows that, unless your headline sells your product, you have wasted 90 of your money." -- David Ogilvy World famous advertising executive and best-selling author. Hello Fellow Marketer, What is the #1 most important part of all your marketing on the Internet? It's your headline! Think about this for a minute. How do people reach you on the Internet? What makes your reader click

over to your web site or read your email message? It all points back to your headline! Your headline WILL only work as well as you program it to! It is the only link to your market that says, "I'm open for business, here's what I have to offer"! If it doesn't get people to click over to your offer, you don't make MONEY!

Here's where it all started...Way back in early 2001, I started marketing a simple little tool that I created called the 3-Minute Headline Creator. Basically it was a collection of best ever headlines tightly-packed into one step by step headline creation process that required too much thinking. Although it was a simple process staying within three minutes was ultimately impossible. The problem was that it actually took more than three minutes to create a headline. I kept questioning myself on how I could automate the process to make it easier for marketers to create headlines and ads. "There Has To Be A Better Way I Thought Until One Day I..." I kept saying things like, "wouldn't it be great if all you had to do was type in a few words, click a button and instantly generate headline combinations that you could choose from".

Then all of a sudden, I found it! "Finally There's A Way To Create Over 100 Profit-Pulling Headlines For All Your Ezine Ads, Articles, Web Site Ads And Sales Letters All In The Click Of A Button" You see, finally there's a way to automate the entire headline creation process. When I say the entire process I mean just that, The Entire Process! If you've ever struggled to come up with good headline, then you will jump for joy once you get your hands on this! 1. All you do is type in your benefit statement which I'll show you exactly how to create. 2. Click a button. 3. Then click another button and instantly generate over 100 headline combinations for you to choose from! That's it! Imagine getting over 100 totally different headlines completely filled in by just typing in a benefit statement about your product. What used to take hours or days now takes less than 3-minutes...It's more like 30 seconds! You may have to change the grammar on a word here or there but that's it! These headlines are ready for you to post. It's a 2-click button headline brainstormer that generates profit-pulling headlines every time you use it! What's nice about it is that it's all contained on a single page... This is not a set of large volume books loaded with a bunch of "filler" pages. The 3-Minute Headline Creator, is a *updated*, totally automated headline creator that guarantees you'll get profitable headlines in minutes! You'll get things like: # How to generate over 100 profit making headlines with just two clicks of a button! Never again waste hard-earned money placing ads with tire-kicker headlines! This alone is worth gold as you will now have an arsenal of profitable headlines that you can choose from all with a click of a button! # You'll get updated headline templates! years. Not anymore! You'll get new fresh headline template combinations that will make your head spin! As of this writing there are 110 headline combinations...That number will go up! # Know how to create a profitable headline by simply showing your reader a specific benefit!
