

Membrane Receptors, Channels And Transporters In Pulmonary Circulation

[DOWNLOAD HERE](#)

Membrane Receptors, Channels and Transporters in Pulmonary Circulation is a proceeding of the 2008 Grover Conference (Lost Valley Ranch and Conference Center, Sedalia, Colorado; September 3-7, 2008), which provided a forum for experts in the fields of those receptors, channels and transporters that have been identified as playing key roles in the physiology and pathophysiology of the pulmonary circulation. The book rigorously addresses: i) recent advances in our knowledge of receptors, channels and transporters and their role in regulation of pulmonary vascular function; ii) how modulation of expression and function of receptors, channels and transporters and their interrelationships contribute to the pathogenesis of pulmonary vascular disease; and iii) the therapeutic opportunities that may be revealed by enhancing our understanding of this area. EAN/ISBN : 9781607615002 Publisher(s): Springer, Berlin, Humana Press Format: ePub/PDF Author(s): Yuan, Jason X. -J. - Ward, Jeremy P.T.
